## CHANGE YOUR CHANNEL

Move cargo more efficiently. Scale operations for future growth.

Big changes are happening here. Freeport Harbor Channel – already the shortest on the Texas Gulf – will soon be the deepest channel in the state. Larger vessels will be moving through our port than ever before and we'll be ready for them with new berths and modern cranes. Best of all, we have over 500 acres of adjacent land ready for development.

See the big picture. It's time to change your channel.
